Model Number: 365004

Harvard Chemical 365004, Red Hot Stripper, 4/1 Gallon Case UPC: 711978411438

Manufacturer: Harvard Chemical Research

Harvard Chemical 365004 Red Hot Stripper 4/1 Gallon Case
Description
A 55% active speed stripper that easily cuts through multiâ€• layers of burnished floor finish. Red Hot Stripper is our fastest working finish liquefier. This product is designed to remove layers of floor finish in less time, with less effort, and no rinsing. In many applications, the entire stripping process can be completed without the use of a floor machine and pad.
Features and Benefits

- 55% Active / High use dilution for greater economy
- Works in all types of water, regardless of hardness
- Low foaming makes pickup easy
- No rinsing required
- No floor scrubber required

Specifications

Appearance:	Yellow Liquid
Odor:	Butyl
Specific gravity:	0.97
PH:	11.0 - 12.0
Detergency:	Excellent

Directions
Mop/Wet Vacuum Stripping System:
Dilute in cold or mildly Specifications warm water from one part product to 2 parts water for heavily builtâ€•up or highly burnished finishes, to one part product to five parts water for normal build up. Apply liberally with a mop to an area small enough so as not to allow the product to dry and allow standing for 3 to 5 minutes. Agitate with a mop and remove solution and old finish with a wet vacuum. Allow floor to dry thoroughly and apply new finish as directed by manufacturer. If complete stripping is not accomplished repeat above procedure before reâ€•application of new finish.
Floor Machine Stripping System:
Dilute and apply product as above using a dilution of 1 part product to 16 parts water varying according to buildâ€•up conditions. Product may be applied with a mop or Automatic Scrubber. Allow to stand for 3 to 5 minutes, scrub with a rotary floor machine or automatic scrubber equipped with stripping pads. Remove solution and old finish with a wet vacuum and allow floor to dry completely. If desired, a rinsing step can be added. Apply new finish per manufactures recommendation.
