:Print Brochure:

PC401 Laser Particle Counter

The PC401 Laser Particle Counter is a great diagnostic tool for tracking down contamination sources, and measuring airborne particle counts before, during and after the job. Displays 0.3, 0.5, 1.0, 2.0 & 5.0 micron particle counts per ft3 or m3

State-of-the-art features include:

- Simple, fast operation with two front-panel buttons
- Fast air sampling results
- Choose from five particle sizes
- Measure particles down to 0.3 microns

Application areas include:

- Cleanrooms
- Infectious Patient Isolation Rooms
- Protective Patient Isolation Areas
- Construction Isolation Areas
- Airborne Contamination Testing
- Hospital Surgical Rooms
- Pharmaceutical Compounding Laboratories

Sales tax is collected for GA and TX unless you have a resale certificate on file that you are going to rent out this equipment.
