Husqvarna 966786401 DCR 300 Demolition Claw 17Inch Opening 604Lbs Cuts Rebar Up To 1.18Inches ENO50

## Description

Our largest and most powerful crusher, DCR 300 is designed for our demolition robots to ensure high working efficiency when demolishing hard and thick concrete structures. With this powerful crusher you can easily demolish a 16 in. concrete wall. It is ideal for a variety of applications such as demolition of concrete and brick constructions, staircases, roofs as well as sensitive locations inside buildings.

50% off sale limited to the next two sales after 2024-10-11.

All Sales Final. Full Factory Parts Warranty, but no returnable.

Wire Transfer Payment Only.
