Payment by wire transfer only. Your payment will be returned if you do not complete this sale faster than all our other customers.
Back ordered till 02/12/25

Description

HTC T8 is the largest model of the grinders with Duratig Technology, which stands for operational reliability, precision, control and power. It is a planetary grinder with three grinding discs. The machine features an intuitive digital control panel which gives you continuous feedback and thus control over the grinding process. The completely dustproof, hermetically sealed design of the grinding head and the electrical cabinet protects vital components and extends their lifetime. The well-balanced chassis design makes the HTC T8 floor grinder easy to operate, with superior ergonomics and advanced safety features.

Note some machines only have 3 spinning hub wheels instead of 4 as seen below. I have no way of knowing how the factory will fill this order.

All Sales Final.
