

Model Number: HCAZ12

ZipWall HCAZ12 Zipwall Adhesive zippers 12 per case

Manufacturer: ZipWall Barrier Products

Equipment Compatibility

Instant Zipper Door: These self-adhesive zippers are a quick way to create an entry in a plastic dust barrier. This kit contains twelve zippers, twelve flap hooks, and one ZipperKnife sheeting cutter, and is an ideal solution for residential and commercial remodeling.

Strong and Durable: Wide fabric tape and a strong adhesive backing withstands high traffic and works in temperatures as low as 32 degrees F. The specially designed sheeting cutter double-cuts the poly sheeting to prevent jams, and the flap hooks hold the zipper door open for easy access.

Easy Installation: Simply peel off the paper backing to attach the zipper to your plastic sheeting barrier, then open the zipper and cut the plastic using the ZipperKnife sheeting cutter.

Dimensions: This fabric door zipper is 7 feet long and 3 inches wide.

Innovative Solutions: ZipWall created the dust barrier category in 1997 and continues to transform this field with a stream of novel dust protection solutions, ideal for residential and commercial use.
