Assembly Tips

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

- We find that during the installation we like to add bearing grease to the inside of the hose reel hub.

- Also add standard flat washers between the two plates that both together that hold this 2" stainless tubing / live vacuum.

- One you finish assembly, add a bead of silicone between the two plates that you just bolted together to prevent vacuum leaks.

- Adding the washers and greasing the 2" tube bushing will ensure the reel spins easily.

- Optional assembly \$100.00

- Optional van install and bolt down at SAN ANTONIO, TX \$300.00
