Manufacturer: Husqvarna Equipment

Husqvarna 970652302 A25 353Cfm Air Cleaner HEPA Air Scrubber 115v

The A25 is part of our latest generation of air cleaners, developed with a whole new level of intelligence and mobility to meet customer demands. Recommended for spaces up to 25 m<sup>2</sup>; in a single-use set up. A colour-coded visual alarm clearly indicates the filter status. The innovative units are compact and stackable – an advantage when it comes to maintenance, transportation and handling. The A25 can be used as both an air cleaner and a negative air machine. Two- or three-stage filtering captures various particles commonly produced on a construction site, including silica dust and wood dust, as well as dust from metal, gypsum and other materials. The active carbon filter is available as an option. Preloaded with one HEPA and 1 prefilter
