VAULT READY DESCRIPTION: There are two primary ways to store coins in a self-serve environment; either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Vaults can hold anywhere from \$700 in quarters for the 10-inch model up to \$1600 for the 18-inch (10", 14", and 18" vaults available for sale). Since most vaults are cemented or bricked in on all sides they are very difficult for thieves to break into. JE Adams provides the 2" threaded nipple and vault tube cover for most units and customers are required to supply concrete bases and tubing to direct money to the vault. Units can be lowered to meet ADA requirements.

JE Adams and SteamBrite Supply Now Offers An Affordable, Secure, and Easy to Use Credit Card Swiper on Vacuums & Air Machines
