

Model Number: 32000-50

J.E. Adams 32000-50, Trash Container for Island

Manufacturer: J.E. Adams

Islands & Canopies

J.E. Adams unique island & canopy design will quickly draw attention to your site. Lighted canopies and the ability to select from numerous colors will be eye-catching to your customers. We even help you customize the signage to highlight your equipment and your company.

Islands are made entirely out of stainless steel and are manufactured to be bolted to concrete instead of requiring concrete to be poured internally. The modular design allows for replacement of individual sections should one be damaged. The islands & canopies can be sold as a set or individually to accommodate your layout.
