Link Manufacturing Ramps LT30 Flat Mount Trifold Design Ramp 36x119 LT30-36-119

Manufacturer: Link Manufacturing Ramps

36x119 Flat Mount Trifold Design Ramp---LT30-36-119

All of our Ramp Systems provide protection for your employees and equipment by eliminating the danger of lifting in and out of vehicles. Our systems are proven to increase your job efficiency and reduce the cost of expensive equipment damage. Create for yourself a professional appearance with a Steam Brite Ramp System.

The LT30 Tri-fold Ramp is a flat mounting system that mounts on van and trailer flat surface floors. It folds up to store vertically inside the vehicle. Designed with shallow load angles makes this the ideal system for loading larger equipment.

Capacity (lbs.) 1000

#### FEATURES & BENEFITS

- Flat surface mount
- Ramp stores vertically inside the vehicle
- Adjustable leg gives the option for shallow load angles
- Can be removed in under a minute

[Print Installation Instructions](#)

#### RAMP SELECTION CHART

Use this chart to choose the appropriate ramp length for your vehicle.

#### RAMP CAPACITY RATINGS

There are many methods that are used to give a ramp its loading capacity rating. Do not be fooled by the numbers. Our ramps are rated using a footprint 6" wide by 16"

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

long.  
Pressure is applied to the center of the ramp with this footprint. We then apply a three times safety factor to arrive at the weight our ramps are capable of loading safely. This gives you a true capacity rating that has the safety of you and your employees at heart.  
Ask your ramp supplier how they arrive at their capacity rating.
