Texas Drivers License Number and Date of Birth
Current Living Address
job site address
Social Security Number
Licenses Plate information on vehicle used to transport equipment.
Credit card information or cash deposit.

A. How come I have to supply my Social Security Number?

Answer: This is to affect your credit when you do not bring the equipment back. This is no different than when you go to the doctor's office and they ask for your social security number. They only reason they need it is if you do not pay your bill promptly. The only reason the doctor's office needs your SS number is to affect your credit. This is a requirement. The only way to avoid providing this information is provide a large enough cash deposit that will purchase the equipment.
