

Model Number: AC13 Combo

Hydro-force Injectimate Combo Kit Grout Applicator Includes both AC13 - 1690-0490 and AC13A - 1610-0885

Manufacturer: HydroForce

Injectimate Grout Sealing Kit

The Injectimate Grout Sealing Kit takes application of water based grout sealers to the next level. This kit, when used with Injectimate, gives you total control of the amount of sealer applied. The flow of sealer stops after each squeeze of the trigger. Use the 3 foot extension tube to apply sealer to floor grout while standing and the 4 inch tube to apply sealer to the counter top and wall grout. You don't want to seal grout without this tool!

Kit includes: 4 Inch Tube, 3 Foot Extension Tube, 3 Brushes, and Instructions.

Injectimate included.

Injectimate

Product Video

Video1

Use the Injectimate wherever sub-surface injection of chemicals is needed. It will replace the carpet syringe, as it can be used in urine decontamination to inject enzymes and odor counteractants through the carpet backing. Injectimate allows you to mix your solution in a gallon container and to inject directly from the container without having to fill a syringe. Every squeeze of the unit automatically injects 5 milliliters of solution. (bottle sold separately)

Optional

Clean Storm Grout Master Cleaning Tool 300psi - 1200 psi 20190919 Wand

For the first time in history, pressure wash tile and grout with a standard 500 psi portable carpet cleaning machine.

No high pressure pump required.
