Warranty Information

Overview

Kohler 18 HP Command V-Twin Horizontal Engine. This gasoline-driven, 4-cycle, 18 HP engine has reliable features including: OHV, cast iron V-Twin cylinder liners, and aluminum block construction.

Kohler Command V-Twin OHV Horizontal Engine with Electric Start — 18 HP, PA-CH620-3050 Moridge /GRASSHOPPER - ZTR (remote engine controls)

Replaced by engine CH620-3129

PA-CH620-3050

CH620 MORIDGE/GRASSHOPPER - ZTR

18 HP Kohler Command Twin OHV

Crankshaft: (24014381-S) 1"(25.4) x 3"(76)

Drilled & Tapped 3/8-24 UNF

.25"(6.36 mm) key way

Front Drive Adapter: (2402909-S)

12 Volt Electric Start: (2509811-S) Solenoid Shift Style

Alternator: (237878-S) 15/20 Amp

Regulator: (4140310-S)

Fuel Pump: (2439316-S) Vacuum Style

Cylinder Type: Cast Iron Sleeves

Muffler: (2478623-S) Canister, Starter side exit 45 degree

Oil Sensor: (2509927-S)

Oil Filter: (1205001-S)

Throttle Controls: (24126176-S) Remote

Air Filter: (4708303-S) Standard

Engine Features:

Engine Applications: Also Use: PA-62642

Sales Notes: MORIDGE - Zero Turn

Grasshopper 618

*May require conversion kit if replacing a 54515 series engine. (Listed Below)

Grasshopper part number: 606321

Durable, Long Life Design.

Hydraulic valve lifters are oil pressurized, ensuring that push rods stay in constant contact with the rocker arms. Requiring no adjustment, the valve train is virtually maintenance-free. In addition, full-pressure lubrication delivers continuous lube to critical engine components, even at 25-degree angle of operation and optional oil cooler regulates the oil temperature extending oil-change intervals. Large capacity, in-line fuel filter provides extra protection against dirt particles that can clog fuel lines.

High Power Performance.

Overhead valve technology provides greater volumetric efficiency and a higher compression ratio. This produces more power, improved fuel economy and cooling and reduces oil consumption. In addition, there is virtually no carbon buildup, reducing overall maintenance costs. The variable speed, mechanical governor promises smooth performance, regardless of application or fluctuating demands for power.

Reliable Starting.

Kohler Command PRO®; electronic ignition system generates a stronger spark at low cranking speed and Automatic Compression Release (ACR) allows compression to escape during cranking to reduce pull force.

User-Friendly Maintenance.

High Power Performance.

Reliability and Long Life Design.

Quiet, Smooth Operation.

Easy Dependable Starts.

Engine Type:

4-cycle, gasoline, OHV, cast iron cylinder liners, aluminum block

* Length is grass screen to PTO mounting face. Width is spark plug to spark plug.
Height is top of air cleaner to mounting feet.
1 Max Power (hp) and Max Torque (lbs ft) specifications for Kohler general purpose engines are rated pursuant to Society of Automotive Engineers (SAE) J1940 based on gross output testing performed according to SAE J1995 without the air cleaner and muffler. Actual engine power and torque are lower and affected by accessories (air cleaner, exhaust, charging, cooling, fuel pump, etc.), application, engine speed, ambient operating conditions (temperature, humidity and altitude) and other factors. This J1940 / J1995 rating provides consistent measurement to customers who may want to control the intake and exhaust features of the engine. For more information, contact Kohler Co. Engine Engineering Department. Kohler Co. reserves the right to change product specifications, designs and standard equipment without notice and without incurring obligation.
