

Model Number: 65.019

Mosmatic 65.019, DKZ Ceiling Car Wash Boom, Z-Series, 5ft 1in 15ft 36in 59in 30in

Manufacturer: Mosmatic Pressure Washing Equip

Mosmatic DKZ 65.019 Ceiling Car Wash Boom Z-Series 5'1" 15' 36" 59" 30"

The ideal solution for self-service car wash systems. The special shape of the Mosmatic Z-boom allows the installation of up to four ceiling booms in one wash bay. This enables the installation of additional profit-generating, ceiling booms for cleaning rims or an air-system boom for vacuuming or drying within a small space in addition to the normal high-pressure and brush wand.

360°; for maximum freedom of movement

The Z-series ceiling boom with its special shape is designed for wash bays in which one boom is not sufficient. The Z-series design allows each individual boom to be repeatedly turned 360°; without colliding with another one. Let your creativity take over and install up to four ceiling booms in one wash bay.

Your choice of inlet and outlet points

All Mosmatic ceiling booms are fitted and delivered with a standard G1/4" inner and outer screw thread. We can also fulfil individual requests and offer a variety of thread sizes and types. An additional fitted connection to the fluid supply guarantees maximum freedom of choice and can be adapted to any individual self-service car wash

High quality swivels

Top quality ensures a long life! All the internal parts are made of stainless steel. They are maintenance-free and easy turning even under high pressure.

Hose protection / tension relief

During minimum to normal pressure on the boom, special hose protection provides optimal stress relief. In addition to hose protection, the optional tension relief lessens extreme pressure on the boom.

Well insulated

The high-pressure hose housed inside the boom is also protected with insulation against heat and cold.

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

Ready to install

All Mosmatic booms are delivered pre-assembled. You can install the booms yourself by following the enclosed instructions. The boom is ready for immediate use after being connected to the media supply.
