

Model Number: SBM5000

Shazaam SBM5000, Descaler System Maintainer Food Grade, 1 Gallon

Manufacturer: Shazaam

Shazaam: Descaler System Maintainer - 1 Gallon SBM5000

Safe to use: This is a food grade descaler, so no need to worry if you spill on your skin or if you have any left in your carpet cleaning machine and clean someone's carpet. No bleaching agents used.

Uses:

Misting fan nozzle soak and cleaner.

Carpet and tile cleaning nozzle and jet soak.

Descal carpet cleaning portables and truckmounts.

Descal heated pressure washers

Descal vapor and steam machines.

Used to remove water spots off automotive paint and windows.

Removes soap scum from shower walls.

Used as a rinse aid in automatic dishwashers.

Add a small amount to steam and vapor machines to ensure they do not clog and work at peak performance.

Assist in the removal of spilled kitty litter from carpet.

Use to lower the pH in carpet before, during, or after carpet dye work.

Food grade will not harm skin or synthetic fabric.

Use as a urine prespray / pre-treatment if you run out of your standard UPT product. (formula is similar but not the same, can be used in a pinch)

Add to enzyme oxidizer compounds to speed up the reaction time. Example:

Oxcelerate, Pounce, OSR, Pet Force

Low pH dissolves old urine, old coffee spots, and kitty litter.

Directions: First dispose/empty any old contents from inside fresh water tank. Shake De-scaler before use.

Option 1: Use to maintain equipment on a daily bases. At the end of every day, mix 16 ounces of De-scaler in one gallon of water in the fresh water. Place mixed contents in fresh water tank. Turn on pressure pump and allow contents to flow through extractor, hoses, and wand.

Option 2: Restore heater/extractor or to unclog lines. Place entire contents into fresh water tank. Up to 5 gallons of straight De-scaler may be needed. Hook up priming/bleeder hose so open end of hose feeds back into fresh water tank. Turn on pump and heater and recycle product through system until water gets warm (150 degrees F). Turn off pump and heater and allow De-scaler to sit inside machine for at least 30 minutes. Flush system with fresh water when finished. Note: strainers and filters may clog regularly for one week after using De-scaler. Clean filters weekly.
