Product Description

Fast Dry is a neutral pH shampoo designed to deliver deep cleaning on natural or synthetic upholstery fabrics. Includes special agents to accelerate drying.

Product Specifications

• Form: Liquid RTU

• SKU Quantity: Case of four 1 gal. / 3.8 L bottles

• RTU pH: 7.76

• Unit Size: 1 gal. / 3.8 L bottle

Traditional hand cleaning method:

1. Mix 12-16 oz. (355-473 mL) of Fast Dry Upholstery Shampoo in 1 gal. (3.8 L) of water depending on richness of foam desired.
2. Check fabric dyes for colorfastness in an inconspicuous area.
3. Using a sponge, clean white absorbent or specially designed upholstery cleaning brush, clean according to industry accepted upholstery hand cleaning techniques.

Foam generating upholstery cleaning equipment:

1. Mix 12-16 oz. (355-473 mL) in 1 gal. (3.8 L) of water depending on richness of foam desired.
2. Check fabric dyes for colorfastness in an inconspicuous area.
3. Clean with foam generating equipment.

For Use In Specially Designed Foam Generating Upholstery Cleaning Machines or With Traditional Hand Cleaning Methods

Rich, Stable, Soil-Lifting Foam Chemspec laboratories, using input from leading professional upholstery cleaners throughout the nation, developed Fast Drying Upholstery Shampoo to efficiently cut and lift greasy types of soil and suspend it away from the fiber until vacuumed. This suspension is performed through a unique, rich, stable, soil-lifting foam as deemed so important by the professional upholstery cleaners. Soil is not ?pushed? into the upholstery like other shampoos on the market.

Crisp, Dry Residue Retards Resoiling Fast Drying Upholstery Shampoo is formulated so that any shampoo residue remaining after foam removal dries crisp and completely. The crisp dry residue is designed to tie-up any greasy or oily soil for fast, complete dry vacuum removal. The result - no oil, no soil, and no residue to promote resoiling. Upholstery appearance remains higher longer.

Formulated With Special Quick Drying Agents Fast Drying Shampoo has added advanced formula, quick drying agents to speed drying time. The extra quick drying

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

results in moisture leaving the fabric faster and reducing the possibility of shrinking. You have more ?control? over the cleaning and the final results.

Reduced Chance of Crocking Upholstery Dyes

The addition of special quick drying agents in our Fast Drying Upholstery Shampoo formulation reduces the time that upholstery dyes remain moist thus increasing the range of upholstery dyes which will not ?bleed? during the drying cycle.
