

Model Number: E9001-1-3C

Electrical Converter 230 Volt 3 wire/prong 30 amp TO 115 Volt Single Gang (2 outlets) Adapter [E9001-1-3C]

Manufacturer: Clean Storm

This 3 prong 30 amp 220 volt converter will plug into most electric dryer plug and commercial coffee machine outlets (building built before 1997) and converts the power into 2 separate 20+ amp 110 volt outlets. Even if your own an extractor with built in green light circuit locator, will still light up and give you the 'OK' signal. Sorry, no room in this device for safety ground fault interruption and overload protection.

Temporary power distribution box  
Construction spider box

Note: User assumes all responsibility on use. It is the users responsibility to check the inbound voltage, outbound voltage, and total amp draw to verify these are not going to be overloaded. The user agrees to test the amp draw of any appliance or machine that they plug into these converters to ensure they are not being overloaded. Meters are cheap and mistakes are expensive. You can purchase a meter for measuring voltage and continuity at

<https://www.steam-brite.com/voltage-meter-multitester-p-6259.html> . Induction pick up amp draw meters can be found at most stores that sell tools.

User agrees to hold Steam Brite, its employees, and agents harmless in the event of any use of said use of converter. The user agrees to not hold SteamBrite and all employee against any problems that arise out of the use of said converters.

Remember, just because it plugs in does not mean it is OK to use!
