Clean Storm 20121224 200 ft Live Electric Vacuum Hose Double Reel for Truckmounted Carpet Cleaning Machines 12V All Sales Final

Manufacturer: Clean Storm

Clean Storm 20121224 200 ft Live Electric Vacuum Hose Double Reel for Truckmounted Carpet Cleaning Machines 12V

#### Description

Live vacuum reels require that all the vacuum hose is pulled off the reel at every job. Even if you do not need it. Because of this the 200 ft reel sells better than the 300 ft reel as most carpet cleaners store and use 165 ft of hoses on the reel and all the hose get pulled off at every job any way. A 50 foot extension hose is just stored on the side wall when needed. Live solution reels do NOT have to have all the hose spooled off at every job except the the first time you use the reel. Get the solution hose HOT and the wind up. After you store your solution hose HOT on your solution reel you just use as needed.

#### Features

- 200 ft Live Electric TruckMount Vacuum hose reel (Hoses NOT Included).
- 200 ft Storage manual wind up Side reel for solution hose or garden hose (Hose NOT Included).
  - Electric vacuum hose wind up is 25 rpm (1 rpm every 2.4 seconds) with 100 lbs torque pull at only 6 amps 12 volts
  - It is a double reel instead of single reel. Usually you will find most reels for only the vacuum.
  - Includes free side mount reel for garden hose of solution hose.
  - Live electric instead of just electric
  - Winds and unwinds in both directions.
  - Connects to 12v Battery
  - Includes a breaker
  - Manufactured in San Antonio Texas USA.
  - 100 ft lbs of torque of wind up power!

## Factory Installed

Stainless Toggle Switch On-On DPDT Double Pole, Double Throw 20 amp 6 Pin 1/4in EZ Connection 20180424

Allows you to power unwind or wind up your hoses!  
You pick the direction of the reels turns.

Note it is the installers responsibility to install a 25-30 amp fuse or a breaker at the point of battery connection and to double insulate your hot wire.

## Additional Information

Larger reel in video below:

Question: If I roll up the solution hose with the vacuum, both on the same vacuum hose portion of the reel, will it still hold 200 feet of both vacuum and solution hose?

Answer: No, The 200 foot max length is based on the vacuum hose only being on the vacuum portion of this reel and not both types of hoses mounted on the same spool.

## Definitions:

Live reel means the vacuum hose stays hooked to the vacuum through the hub of the reel full time through a swivel.

Storage reel means you have to remove the hose off the reel for use. The reel is just used to wind up the hose and store it.

Electric means you hook to your 12 volt battery and with a push button momentary switch you wind up or unwind the hose.

Live Electric is both live and electric on the same reel

This reel is Live Electric vacuum and storage side reel (usually used to store garden hose)

Note all these reels come from China and will have paint chips and small micro dents in the metal. These are not shipping causes and neither the delivery company or Steambrite can or will do anything about this as when we ship out a replacement, it too will not be 100% perfect. These historically are not truly round and perfect and might too have a slight wobble to them. All sales are final as these are an excellent value for what you receive.
