Description

Nothing is easier than "tip and pour" waste water disposal. Our new wet/dry vac models have the capacity and power for large water recovery jobs or dry debris pick-up in the shop or on the job site. They are perfect for hard floor maintenance jobs, recovering floor strippers and hard floor cleaners easily. The swivel hose connector allows 360° hose rotation, letting you move the vacuum without fear of disconnect. These wet/dry vacs feature a two stage filtration process with a washable permanent cloth filter bag that keeps dust from circulating back into the air and a super performance pleated paper cartridge filter for more efficient general application filtration.

The 15 gallon stainless steel wet dry vacuum provides true professional quality to meet the most demanding needs and environments. This is top equipment for stripping floors, water recovery, dust pick up and general maintenance.
