

Model Number: BP10P

PowrFlite BP10P Premium Comfort Pro Backpack Vacuum 10 Quart Back Pack Freight Included

Manufacturer: Powr-Flite

Commercial Backpack Vacuum Cleaners

Powr-Flite offers top quality commercial grade vacuum cleaners in a model for your specific requirements.

The Comfort Pro represents a major innovation in backpack vacuums. The Comfort Pro offers features not found in other backpack vacuums including the incredible Aircomfort harness system, CRI Gold level performance, our revolutionary new hands free-tool system for time saving productivity and the Patent-Pending Active-Cooling.

Premium Model Exclusive: Superior 62 dBA rating

Premium Model Exclusive: Telescoping wand & stretch hose with hands-free capabilities

Features:

- 130 CFM
- 4-stage HEPA filtration for improved indoor air quality
- Tools fit conveniently on waist belt
- Ergonomic shoulder harness from Deuter, the #1 hiking and backpack company in the world
- Designed to transfer the majority of the weight to the hips, eliminating strain on the back
- Comfort Pro backpacks come complete with a high quality tool kit, 50' safety-yellow power cord, and two HEPA filter bags

Assembled in Texas by skilled American workers, the Comfort Pro represents a major innovation in backpack vacuums. The Comfort Pro offers features not found in other backpack vacuums including the Aircomfort harness system with a mesh back panel keeping the operator cooler as well as CRI Gold level performance which will make the Comfort Pro THE choice of cleaning professionals.

When you are vacuuming, it helps to have the right tool for the job. With Powr-Flite's extensive line of commercial grade vacuums, it is easy to match the features you need to the job. Our upright vacuums feature heavy-duty low profile housing and wide furniture guards to protect the unit and surroundings during use. Everyone has a preference when it comes to vacuum bags so we made it easy. Most

of our models come in either a Vacucide, treated shake out bag model or with the Enviro-Clean, high filtration paper bag. We also offer a heavy duty dirt cup model for fast, simple and clean waste disposal.

When it is necessary to keep the noise level to a minimum, our two tools on board? vacuums feature a clean air filtration system that operates powerfully, yet quietly with the Silent Run System. Our commercial vacuum line is completed with two wide area sweeper models and a convenient back pack vacuum. We know your requirements are varied so we offer models in every price range and with a wide range of features so that you can choose the equipment that best fits your specific requirements.

- Lightweight breathable mesh back panel allows cooling air to get to the users back, keeping the operator up to 25% cooler.
- Heavily padded waist belt and lumbar support with ergonomic pull forward tightening straps transfer weight to the user's hips – not shoulders.
- Contoured, padded, and easy to adjust shoulder straps feature an adjustable chest strap and shoulder mounted load stabilizers which allow the user to pull the vacuum close to the body for better control or let it hang away from the body for more ventilation.
- The Deuter Vari-Quick system allows shoulder strap height adjustment in seconds to ensure that users of different heights will have a properly adjusted harness.
- The Aircomfort harness provides a great fit for all body types and provides better balance through weight distribution.

Powr-Pro Backpack Vacuum

Powr-Pro backpack vacuum is the solution for difficult, tight or confined vacuuming situations! Lightweight and comfortable go anywhere convenience!

World class cleaning Performance

The new Comfort Pro backpack vacuums have earned the "Gold Seal of

Approval from the Carpet and Rug Institute (CRI), the pinnacle of cleaning performance. Engineered to deliver superior cleaning power, productivity and dependability, while protecting Indoor Air Quality (IAQ), these backpacks are the perfect combination of power and comfort.

Super quiet operation

Operating at a whisper-quiet 62 dBA (premium model) and an incredibly low 68db A (standard model), these units are perfect for cleaning in noise sensitive environments, as well as for daytime cleaning operations. These low decibel noise levels enable the Comfort Pro Backpack Vacuums to proudly meet U.S. Green Building Council LEED-EB and CIMS-GB requirements for noise sensitivity.

active cooling option

Both models feature a lightweight breathable mesh back panel that allows in cooling air, keeping the operator up to 25% cooler. The Comfort Pro Premium model takes it to the next level with a patent pending "AC" system that pulls warm air away from the operator, keeping the user even

cooler and more comfortable.
hands-free.

The premium model features storage for all the tools right on the belt, including the wand! This unique system allows the operator to keep their "hands free" to perform other tasks without fighting the tools or wand, or leaving them behind, ensuring maximum productivity and operator comfort.

Powrflite back pack vacuum makes it easy to get in and out of difficult, tight or confined spaces quickly and easily. The Powr-Pro backpack vacuum features the most comfortable back support, shoulder straps and waist belt of any backpack vacuum!

- Available in a 6 qt. or 10 qt. sizes for every speed cleaning application
- Powerful 120 CFM vacuum motor will improve your cleaning team's performance
- Superior 62/68 dB rating for whisper quiet operation
- Four-stage filtration plus an optional HEPA filter for improved indoor air quality
- Ergonomically designed shoulder harness assures a perfect fit for every operator and features convenient hand tool storage on the padded waist belt
- Comes complete with double-bend wand, stretch hose, easy glide carpet, bristle floor tool, crevice, upholstery, and dusting tools

Four Levels of Filtration

1. HEPA bag captures 99.97% of all pollutants – as small as .3 microns in size.
2. Micro Cloth filter is a washable, reusable filter with breathable membrane.
3. Pre-Motor filter protects the motor from harmful debris.
4. Exhaust filter is an easy-access washable, reusable post-motor filter.

The most powerful and quietest backpack vacuum you'll ever use, the Powr-Pro is the ultimate tool for "crew cleaning." This lightweight backpack vacuum makes it easy to get in and out of difficult, tight or confined spaces quickly and easily. Wearability is a major issue with backpack vacuums and the Powr-Pro has all of the features for maximum comfort. The ergonomically designed back support and harness with flexible shoulder straps and waist harness assures a perfect fit for the operator and it is so quiet it can be used in a library during business hours.

Product Features:

Superior 62/68 dB rating for whisper quiet operation

Ergonomically designed back support and harness

Lightweight at only 10.5 lbs.

Four stage filtration plus an optional HEPA filter kit

Complete set of tools and adjustable double bend wand

Standard vs. Premium Hands-Free Tool Kit

The Standard model includes all of the tools you'll need for any detail cleaning job plus hard floor and carpet tools including our incredible new Powr-Glide high performance carpet tool. The Premium Hands-Free Tool Kit includes these same tools plus the telescoping wand and adapter that attaches to the Comfort Pro waist belt for hands-free applications along with a 2' to 6' stretch hose.

Powr-Glide High Performance Carpet Tool

Designed for daily use, the Powr-Glide's improved suction performance and unique design increase soil removal while still allowing it to easily glide across the carpet. The brush strip provides agitation to the carpet fibers and is replaceable. This high performance tool removes deeply embedded soil and keeps carpet looking its best. The large mouth in the center of the Powr-Glide allows you to pick up larger debris so you do not have to bend over and pick it up.

Belt System

Attach any of the many detailing tools directly on the belt to quickly transition to any type of cleaning surface with ease. Every Comfort Pro model features our revolutionary new waist belt system which allows detail tools to be stored directly onto the belt. This provides easy conversion from one tool to another depending upon the cleaning application. Carpet care performance is further enhanced with the new Powr-Glide carpet tool for high performance carpet cleaning which is included in both our Standard and Premium models. Our Premium Comfort Pro models also include our hands-free system which allows the user to attach our new telescoping wand directly onto the belt eliminating the need to remove the wand from the backpack when two free hands are necessary.

CRI Gold Performance

Both the Standard and Premium Comfort Pro models have been rated Gold by the Carpet and Rug Institute for outstanding cleaning performance and superior filtration while protecting carpet fibers. CRI is an independent third party organization that tests carpet cleaning equipment. Only an elite few backpack vacuums have achieved CRI-Gold status.

To earn the CRI Seal of Approval/Green Label certification, vacuums must pass the following independent laboratory tests:

- Soil Removal - CRI uses NASA-enhanced x-ray fluorescence technology to measure the precise amount of soil removed from carpet.
- Dust Containment/Filtration - The vacuum must release no more than 100 micrograms of dust particles per cubic meter of air, keeping dirt and dust locked in the vacuum - not escaping back into the air where it can be breathed.
- Carpet Texture Retention - The vacuum must not affect the texture of the carpet more than a one-step change based on one year of normal vacuum use.

EQUIPMENT WARRANTY INFORMATION

All Powr-Flite equipment has been carefully tested and inspected at the factory. It is guaranteed, subject to the terms stated in this warranty, to be free of defects in materials and workmanship. We will repair or replace any parts which, upon examination, prove to be defective in material and workmanship. For warranty claims, call our Customer Service Department.

NOTE: Electric cable switches, carbon brushes and couplings are excepted from these guarantees, but the purchaser is assured meticulous care has been exercised in the selection, assembling and testing of these parts before shipping. This warranty does not apply to damage caused by accident, misuse, negligence, abuse, fire or to any Powr-Flite product which has been repaired by other than an authorized Powr-Flite distributor or factory personnel. Warranty is void if products are used for any purpose other than that which was intended. Please read instruction manuals and maintenance instructions carefully.

3 year parts, labor on Comfort Pro back pack vacuums.

"I am very satisfied with the product! I can comfortably wear the backpack vacuum for hours. The gear belt took some getting used to, but once I did, swapping out the tools was a breeze and the increase in efficiency was noticeable. The suction force is very good, and the machine is the quietest of all the vacuums I currently have. Thanks for a great product priced right!"

"This machine is amazing. The comfort is nothing like any backpack vac I have ever had. A quality product and a great price."

– Greg Scott, Aberdeen, SD

About Deuter

To make the most comfortable backpack vacuum possible Powr-Flite partnered with Deuter who has more than 115 years of experience in the hiking and backpacking industry. They revolutionized the outdoor industry and have grown to become the number one backpack company in the world. Powr-Flite's Comfort Pro vacuum combined with Deuter's state-of-the-art harness and lightweight frame make for a truly remarkable backpack vacuum that provides a level of comfort like no other. The Deuter Aircomfort Harness System ensures that the harness on the Comfort Pro offers multiple unique adjustments - for a secure, cool, and comfortable fit for every user.

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

Active Cooling

The Aircomfort Harness System with breathable mesh back panel allows cool air to circulate to the users back keeping the operator cooler than other backpack vacuums. The Premium model combines this cooling power with the patent-pending Active Cooling that circulates warm air away from the body pulling cool, fresh air against the users back. The flow of cool air reduces overall heat felt by the user providing a more comfortable experience. This is particularly important for those tackling a large cleaning job where a backpack vacuum is used for an extended amount of time.

Vari-Quick System

The Aircomfort Harness System includes the exclusive Vari-Quick adjustment system that allows for quick height adjustments for a customized fit to each user without the need of any tools.
