Drieaz GE Protimeter BLD2000 Mini F322

Manufacturer: Drieaz

The Protimeter Mini is a compact, general purpose moisture meter used by building professionals and trades across the globe to check the moisture level of wood and building materials for a vast range of quality control and moisture diagnosis applications.

The new Mini incorporates a range of design refinements and features that make it easy to use. The ergonomically designed case fits snugly in the hand, so it can be used effortlessly for long periods of time and the new display is very bright for visual clarity.

Also if the instrument is left on, it switches itself off automatically after five minutes to conserve battery life.

GE Protimeter has used their knowledge and expertise to produce an instrument that combines superior design with optimal functionality.
