

Model Number: SS18

Heat Seal Equipment SS18, Scorpion Reverse Blast Spinning Brush, 4 to 6 inches

Manufacturer: Heat Seal Equipment

- This new tool for the Scorpion System is used when super aggressive brushing is required.
- Perfect for dried on, baked in hard drier vent lint.
- Works only in round duct 4 to 6".
- Needs a minimum of 175 psi to operate
- Includes Quick Disconnect
- blows in reverse.
- Bristles act like helicopter blades and help push debris back towards you.
- When standard whips and blast blower balls will not clean, this is the tool to try.
- Replacement bristles available.
- 12 cfm.

Can only be used on Scorpion rods and snake.

Improved Design, more torque

Optional

Heat Seal Equipment: Flexible Duct 4" Ball

Lifts the nozzle off the bottom of the duct to improve spinning!
