

Model Number: NM201HD

Powr-Flite NM201HD Floor Machine 20in 1.5 HP PolyBody

Manufacturer: Powr-Flite

Powr-Flite NM201HD 175 RPM, 1.5 hp Floor Machine

At 1.5 hp and 175 RPM Powr-Flite floor machines are the smoothest operating in the industry. Contractors/floor technicians prefer the Powr-Flite floor machine for their easy start up. Powr-Flite floor machines feature a patented rotationally molded housing that absorbs the shock and torque normally associated with running a floor machine. The M171HD-3 17 model and M201HD-3 20 model are built to take the torque associated with bonnet cleaning and heeling of the floor machine. The M171SD-3 is made specifically for sanding and grinding jobs. The ultra high output 1.5 hp motor provides the power to maintain the speed necessary for the tough floor cleaning jobs and start up where heavier torque is required; stripping, scrubbing, scraping, grinding, shampooing and bonnet cleaning.

Product Features:

- NEW one piece all metal handle housing, tube and trigger assembly
- NEW safety lock out on handle with easy access thumb action - even with both hands on the handle
- NEW heavy-duty all steel triple planetary transmission with 3 year warranty
- NEW ultra high output 1.5 hp motor with lower amp draw for the ultimate in power
- Patented rotational molded housing absorbs vibration and controls torque for easy operator control

Product Specifications:

Model Number: M201HD-3

Pad Speed: 175 RPM

Motor: 1.5 hp, UL listed

Transmission: Triple planetary drive, all steel gears

Power Cord: 50 ft. UL listed 14/3 STW-A

Base Housing: One piece vented, high density polyethylene

Wiring: All completely enclosed in housing

Operation: Convenient, switch housing mounted

Handle: Steel tube 1.5" diameter

Wheels: 5 inch non-marking, self lubricating

Warranty: 10 yrs. housing, 5 yrs. motor, 3 yrs. transmission, 1 yr. on parts
