

Model Number: KZ-X-DL1

Medical Ozone Generator and Bed Sanitizer for infection control

Manufacturer: -

This unit is used to disinfect the bedding.

The encasement of the bed is required but you do not have to remove the mattress or bed from the room. It is used globally and has many certificates for exporting. Used for Medical bed sanitizing and medical bed ozoning and infection control. Very portable and easy to use and maintain.

Keeping the hospital environment infection free is a prime concern of any conscientious hospital management. Preventing contamination and spread of infection is an assigned responsibility of the doctors and nurses, which can never be compromised. The most common cause of high internal rate of infection in a hospital is the poor sanitization of the beddings (sheets, pillows, mattresses etc) and the clothing used by the patients.

Till now, the most commonly used methods of sanitizing bed sheets and mattresses; pillows etc. have been ultra-violet radiation and utilization of highly compressed steam. These methods can, at best, disinfect the surfaces but have not been so effective in eradicating the deep rooted pathogens.

This Bed Sterilizer can be an excellent facility for cross-infection control and sanitization. It can root-out infection most economically and effectively prevent the spread of diseases in a hospital environment.

The Bed sterilizer is the latest equipment of its kind and has been listed in the Disinfection Technical Standards published by the Department of Health in 2002. This Ozone Bed Sterilizer is now the only assigned method of sterilization.

For the standard hospital bag(size:260*130cm), it replacement cost 60 USD/PC. If bigger than this size, it will cost 120 USD/PC.

Any size, it depends on the sealed bag you choose. We also have sealed bags for king and queen bed size.

The minimum ozone generated is 8g/h.

We are two years-warranty to the Bed Sterilizer. If there is any problems, we will send the replacement to customer and tell them how to replace it.

(AC/DC) Adapter. . The input of adapter is: 100-240 V,50-60 Hz,0.5 A. and the output is +12 V-2.0A.

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

Also available in 230 volt use for international use.

Packaging one wooden box size: 1 PC/box about 64 X64 X120 CM
