Flir IR E5xt with MSX Thermal Imaging Infrared Camera AC145 Freight Included 1697-8520

Manufacturer: Flir Systems

Compact Thermal Imaging InfraRed Camera with MSX® Enhancement

What is MSX?

1697-8520 FLIR E5xt IR CAMERA WITH MSX AND WIFI 160 X 120 RESOLUTION 9Hz

Video

Multi-Spectral Dynamic Imaging (MSX) for easier interpretation of an image - adds visible spectrum definition to IR images by detecting the edges of objects and including that detail in the thermal image. Text becomes clearly visible so that you can read a label or identifier within the IR image. This exclusive function provides extraordinary thermal detail that instantly highlights and orients problem locations and eliminates the need to refer back to a visual image for detail.

- IR Resolution:
- Display: 3" color LCD
- On-board 640 x 480 Digital Camera
- Easy-to-use, weighs only 1.2lbs
