

Model Number: Flir E6

Flir IR E6 with MSX Thermal Imaging Infrared Camera AC146 Freight Included

Manufacturer: Flir Systems

Compact Thermal Imaging InfraRed Camera with MSX® Enhancement
What is MSX?

Video

Multi-Spectral Dynamic Imaging (MSX) for easier interpretation of an image - adds visible spectrum definition to IR images by detecting the edges of objects and including that detail in the thermal image. Text becomes clearly visible so that you can read a label or identifier within the IR image. This exclusive function provides extraordinary thermal detail that instantly highlights and orients problem locations and eliminates the need to refer back to a visual image for detail.

• IR Resolution:

- FLIR E4 - 4,800 pixels (80 x 60)
- FLIR E5 - 10,800 pixels (120 x 90)
- FLIR E6 - 19,200 pixels (160 x 120)
- FLIR E8 - 76,800 pixels (320 x 240)

- Display: 3" color LCD
- On-board 640 x 480 Digital Camera
- Easy-to-use, weighs only 1.2lbs
