

Model Number: 87512070

Pump Legacy 87512070, GS4040G.3, 4gpm 4000psi 3400 Rpm, 8.751-207.0, Heavy Duty Direct Drive Pump, 13 hp engines

Manufacturer: Karcher Pressure Washing

Karcher: Pump, Legacy Gs4040g3

4 gpm

4000 psi

3400 Rpm

1" hollow shaft drive for direct hook up to your horizontal engine.

Also marketed under: 87512070, 8.751-207.0 - Legacy Shark

Specifications:

1/2" Prime; inlet x 3/8" Prime; outlet

4 GPM

4000 PSI

3400 RPM

1" Prime; Hollow Gas Right Shaft

26 lb weight

Applications:

Legacy is introducing the next wave in high-pressure pumps, the Legacy HD pump.

This heavy-duty high-pressure pump is the outcome of 2 1/2 years of research and development, resulting in a number of upgrades over previous pump models.

Premium, long life components and new design features make the Legacy HD pump a standout among the other high-pressure pumps. Tests prove it will hold up better in rugged working conditions.

Features:

Stronger crankcase housing with thicker aluminum cross members and mounting feet for added strength

Crankcase features cooling fins for heat-transfer (cooler oil temperatures ensure less stress on all parts and a longer life of the pump)

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

Super strong two-piece connecting two rods designed with double feeder grooves, to maximize lubrication for a dramatically cooler running pump

High temperature long-life Seals correctly fitted for each pump

Dacromet® finish on manifold bolts ads extra protection

Oil level dipstick is vented, allowing for heat expansion and oil level sight glass allows for quick and easy oil inspection

Premium European quality tapered roller bearings on both the drive-side and opposite-drive-side of the pump allow for heavier and demanding loads while greatly reducing noise levels and heat build-up

Precision machined hollow crankshafts for easy assembly and disassembly

Polished stainless steel plunger rod reduces friction heat for a smoother and cooler operation

Precision ground and highly polished solid ceramic plungers designed and manufactured to withstand dramatic temperature and pressure spikes

Revolutionary forged brass heads with exclusive “deep-well-sealing” valve caps eliminate any head pressure effects to the valve cap and valve cap thread
