Extractors

Please make sure the customer is not wiring the M9253f into the U.S. products existing circuit board. The original motor used in U.S. Products is a 90 volt motor installed with a circuit board and speed control, if the Ametek motor is installed utilizing this circuit board it will have failure. The circuit board and speed control will need to be removed and rectifier installed if being used as a replacement for the original motor.
Options below:

3/8" Mip X 1/4" Fip Brass Bushing Adapter

Does your original pump have or use 1/4" connections?

If so you might want to purchase some of these bushing to convert 3/8" holes to 1/4" pipe connections.

On US Products machines the answer might be "yes" or if your machine 204v series head installed originally.

Pumptec: Series 205V 500 PSI Upgrade Kit

You might need this kit to convert a lower pressure system to a 500 psi carpet cleaning machine.
