

Model Number: RLPK

ZipWall RLPK Reel Pack

Manufacturer: ZipWall Barrier Products

The Reel Pack Includes:

- Caution Tape Reel
- 300 foot roll of caution tape
- 6 Tape Clips

The clips can be installed before or after you run you caution tape out and around the poles. The tape will slip into the clip and doesn't need to be threaded.

The Reel will clamp onto the both the 12 foot pole and the 20 foot pole.

Never run out of options for attaching your caution tape. With the ZipWall®; caution tape reel and your ZipWall®; poles, you can set up a neat barricade quickly. Professional looking, the tape stays flat and upright - always displaying its message. You can also attach the caution tape Reel to a ZipWall®; barrier. This gives extra warning to pedestrian traffic. When you're finished, reel in the tape just like a fishing line and use it over and over again. Use it with the ZipWall®; SLP®;s or Kit 20 poles. The Reel Pack comes with a 300 foot roll of caution tape, but can hold 1000 foot rolls too.

If you need the complete package, check out the Facility Pack. It includes the Reel Pack, as well as 6 ZipWall®; SLP®; poles, and a Carry Bag. Take a look at the short video demo of the Caution Tape Reel listed on this page.
