

Model Number: D320A

HydroForce D320A, Preload 5, Carpet Cleaning Pre Spray, TMF - 8lbs Jar, UPC: 1649-7568

Manufacturer: HydroForce

We are really excited about our new Preload 5. After testing in the field (not a laboratory with fake dirt) I personally feel it could be the best pre spray ever created. Believe me I know what a great pre spray is. After cleaning for 30+ years in the field, being on the pulse of our industry through Truckmountforums and trying everything in our industry I know what we needed.

One thing overlooked by chemical manufacturers is testing on ALL 5 US soil types. By testing in the field in their area explains the mystery why a pre spray may work in one area but not another. So I have spent countless hours with my chemist formulating & re-formulating to finally get to what I consider the "holy grail" of pre sprays. So much so I will back it up with a money back guarantee (minus shipping and handling fee). Here is what makes me think it will be the best carpet cleaning pre spray ever created;

- Tested on ALL 5 US soil types
- Tested on ALL synthetic fibers in then field
- Mixes easily & completely
- Contains built in booster
- Cleans & brightens carpet over night
- Cuts oil even on dreaded poly's
- Light natural fragrance
- Rinses easily & completely
- Virtually eliminates possibility browning
- Removes many organic colored stains
- Cuts easily through rat nasties
- Kills urine salts & odors
- Virtually residue free
- No fillers or additives
- Reduces need for spotting & spotters
- Extremely economical powder
- Powder low cost shipping
- Patented hot or cold H2O2 activator
