Aquatec is the only USA Made pump on the market as flojet and shurflo have gone to Mexico/China. Our pumps have the following key differentiating features:

1. Made in USA
2. The only sealed motor on the market, to prevent moisture and dust intrusion
3. All of our models incorporate the combination demand switch and internal bypass, to ensure there is no cycling with #2 tips or larger
4. Our high efficiency motors are made in here in California with the longest life brushes and front/rear bearings for reliable performance.
5. We have all agency approvals, UR, CE, and RoHS.
