

Model Number: PA-CV740-3133

Kohler 23.5hp Command Pro V-Twin Vertical Shaft CV730-0013 FERRIS INDUSTRIES / replaced with PA-CV740-3133 GTIN N/A

Manufacturer: Kohler

Now replaced with PA-CV740-3133, same crank but a different wire harness!

Oil Pan/Lubrication 3-24-68
Starting System 7-24-2

Features + Benefits

- 12V solenoid shift starter
Aluminum block
- Spin-on oil filter
Hydraulic valve lifters
- Smart-Choke™; carburetor
Oil Sentry
- Includes muffler and exhaust manifold
-

Durable, Long Life Design.

Hydraulic valve lifters are oil pressurized, ensuring that push rods stay in constant contact with the rocker arms. Requiring no adjustment, the valve train is virtually maintenance-free. In addition, full-pressure lubrication delivers continuous lube to

critical engine components, even at 25-degree angle of operation and optional oil cooler regulates the oil temperature extending oil-change intervals. Large capacity, in-line fuel filter provides extra protection against dirt particles that can clog fuel lines.
High Power Performance.

Overhead valve technology provides greater volumetric efficiency and a higher compression ratio. This produces more power, improved fuel economy and cooling and reduces oil consumption. In addition, there is virtually no carbon buildup, reducing overall maintenance costs. The variable speed, mechanical governor promises smooth performance, regardless of application or fluctuating demands for power.

Reliable Starting.

KOHLER Command PRO®; electronic ignition system generates a stronger spark at low cranking speed and Automatic Compression Release (ACR) allows compression to escape during cranking to reduce pull force.

User-Friendly Maintenance.

High Power Performance.

Reliability and Long Life Design.

Quiet, Smooth Operation.

Easy Dependable Starts.
