ProRestore Electro-Gen 2000C Compact Powerful Thermal Fogger (110 Volt) Unsmoke Electrogen 102307001

Manufacturer: Drieaz

ProRestore Electro-Gen 2000C™
Use Instructions

ProRestore Odor Control Chemistry

ODORx is a complete line of professional odor control chemistries formulated for use with the ThermoGen 2000C and other application equipment. These products can be used individually or in combination to target specific odors. For information about how to use ODORx chemistry to maximize odor control, please see product labels and usage guides available at www.ProRestoreProducts.com.

ODORx Thermo-2000 Products

Thermo-2000 Fragrance-Free. Highly effective general purpose smoke odor counteractant. Contains no fragrance materials.

Thermo-2000 Kentucky Bluegrass (KBG). Excellent general purpose counteractant to airborne malodors. Highly effective against smoke odors from burned plastic and rubber. Provides moderate length residual air freshening characteristics. Works synergistically with 9-D-9 and COC.

Thermo-2000 Cherry. Excellent general purpose counteractant to airborne malodors. Highly effective in wood and paper fire situations. Affords moderate length residual air freshening characteristics. Works synergistically with 9-D-9 and COC.

Thermo-2000 Citrus. Excellent general purpose counteractant to airborne malodors. Provides long lasting residual air freshening action. Works synergistically with Double-O and COC in protein fires such as burnt meat or poultry.

ODORx Specialty Odor Control

Products 9-D-9 A highly-concentrated general purpose odor counteractant. Boosts the effectiveness of other water-based odor control solutions and can be added to cleaning solutions to provide odor control.

Double-O™ Eliminates stubborn protein odors associated with kitchen fires, burned meat, spoiled food, and more. Highly effective against sewage related odors and for water damage restoration.

COC Crystal Odor Counteractant C.O.C. combines chemical odor neutralizers and natural absorbents in a long-lasting ready-to-use dry deodorizer that is effective

against sewage, putrefaction, and more. Available in loose granulated cherry and citrus formulations and in ready-to-place 6 oz. canisters with vented tops.

Powerful thermal fogging device for water-based fogging agents.

The Electro-Gen 2000C was designed with safety and performance in mind. Use the Electro-Gen 2000C with ODORx Thermo-2000 formulations, which are water-based and offer a safer alternative to petroleum-based products. AKA ElectroGen 2000c

The Electro-Gen 2000 is equipped with a thermostat controlled temperature sensor, which reduces the risk of operator error and "droplet fallout." The Electro-Gen 2000 delivers over 5,000 cubic feet of fog per minute. A dual action control provides both manual and automatic operation.

ElectroGen2000C Manual 115V (102309002B)

Specifications

Product name

ElectroGen 2000C Model 102307001 (110V)

Dimensions (W \times H \times D)

13.2 \times 7.5 \times 5.5 in.

33.5 \times 19.1 \times 14.0 cm

Weight (including cord, hose and filled tank)

11 lbs. | 5.0 kg

Power consumption

900W

Power supply

110–130V / 50–60 Hz

Output

5000 cu. ft /min. | 142 cu. m/min.

Warm-up time

6–8 minutes

Key Features

Powerful 900 watt heater produces up to 5000 cu. ft. of deodorizing fog per minute to make quick work of deodorizing crawlspaces, meeting rooms, larger spaces and more!

Works exclusively with ODORx Thermo-2000 - our popular ready-to-use water-based product available in a variety of scents to tackle the most complete odor control situations. The ElectroGen 2000C ONLY works with the water-based thermal fogging solution - ODORx Thermo 2000. Using a solvent-based solution with the ThermoGen 2000C will void its warranty.
