

Model Number: 20151224

Clean Storm 20151224 Housing and Wrap for Dual Core Dual Chamber In Line Water Heater
1750-2000 Watt - Volcano

Manufacturer: Clean Storm

Clean Storm 20151224 Housing and Wrap for Dual Core Dual Chamber In Line Water Heater 1750-2000 Watt - Volcano

NOTE: This is just the housing and wrap! NO rods, NO thermostats, NO safety pressure valve!

Description

Repair your heater if you let it freeze in cold weather or if you used more than 500 PSI and broke a weld point with a new housing and wrap.

This housing and wrap style was used in the original Mytee 2000 watt hot box heater, Sandia Plastics, and is used in the Clean Storm Volcano 1750 watt and 2000 watt heaters.
