

Model Number: C-INDTBK

Chemspec C-INDTBK, Double Strength, In Plant Wool Safe Oriental Rug Cleaner, 50 lbs Pail

Manufacturer: Chemspec

Double Strength In Plant Wool Safe Oriental Rug Cleaner

SKU: C-INDTBK

Product Description

Unique blend of detergents and surfactants allows quick and deep penetration into the fibers to emulsify and suspend soils. Rugs dry very quickly, which helps prevent wicking and browning concerns.

Product Specifications

- Form: Liquid

- SKU Quantity: One 5 gal. Pail

- RTU pH: 10.5

- Unit Size: 5 gal. Pail

Plants with automatic mixing (Carburetion) systems:

A ready-to-use (RTU) solution of InPlant should have a range of 0.15% to 0.25%.

First, make a 4% concentrate tank using 150 gal. (568 L) of warm (not hot) water, dissolve 50 lbs. (22.7 Kg) of InPlant. This concentrate may be further diluted by carbureting (mixing) 1 part of concentrate to 25 parts of water, making ready-to-use 0.15% concentrate. To make a 0.25% concentrate, the 4% concentrate should be carbureted to one part of concentrate to 15 parts of water.

Pit Cleaning (Floor Scrubbing):

Plants that scrub with a rotary machine, then rinse and wring. Recommended concentrations are 0.25% to 0.4%. To make 100 gal. (379 L) of RTU InPlant with a range of 0.25% to 0.4%, dissolve 1.5 to 2 lbs. (0.68 to 0.91 Kg) of InPlant in warm water.
