

Model Number: AC12H

HydroForce AC12H Auto Dump Auto Pump Out Apo Filter Box System For Truckmounts and Portables 1620-2311

Manufacturer: HydroForce

Hydro-Force Filter Box with Pump Out 115 Volts 1620-2311
Item No. AC12H

The Pumpout-V115 has the versatility that professional carpet cleaners and restorers are looking for. This portable pump out will go where you like to pre-filter and pump the waste water to the area of your choice. The 115 volt waste pump handles all you can throw at it with high volume output and long life durability. Set up for single or dual wand pumping and filtering, the Pumpout-V115 will work for unlimited hours while the technician never has to make a trip out to the van to dump waste or empty filters. Great for cleaning large buildings and flood restoration too.

Can be used to convert portable extractors to auto dump tile cleaning machines.

Combine the vacuum from two electric portables for longer hose runs or convert you super suction machine to run two wands at the same time.

Lessens drain and dump times on water extraction jobs.

Features:

- Dual stainless steel removable filters.
- Works single or dual wand.
- 115 Volt pump out works from household current - save draining machine battery and charging system.
- Durable aluminum box.
- Pumps 10 gallons per minute.
- Use as everyday pre-filter and pump out for cleaning or pump out on floods.
- Dual ports allow for dual wand use - or "Four to the Door" to increase vacuum.
