Truckmount 20170128 Start Up 20HP HOT Tile Cleaning Pressure Washing Carpet Cleaning Business Package Goliath Quad 6.6

Manufacturer: Clean Storm

Truckmount Start Up 20HP HOT Tile Cleaning, Pressure Washing, Carpet Cleaning Business Package [20170128]

Package advantages:

Vacuum is strong enough to operate 14 and 15" wide tools for 37% faster cleaning!

Hotter than heat exchange truckmounts especially at high flow rates.

Offers 200 degree water in 30 seconds.

Operates at all pressure ranges: 450 psi for upholstery, 600 psi for carpet, 1500 for tile, 2000 psi for pressure washing.

Offer flood extraction ability with 30 gpm auto dump.

Cost half as much as other truckmount systems.

Performance number is why higher than other truckmount systems.

214,000 BTU Heat + 12,000 Cleaning Speed + 73,100 Vacuum Units = 299,100 performance units

This is double the performance of truckmounts that cost 100% more than this package.

Perfect setup for high flow wands that normal truckmounts cannot keep up with.

Example Rotovac Bonzer Wand, Carpet Care Pro Zipper Wand, Sapphire Hoss 700, Mytee Trex, Rotovac 360XL. A traditional 20 hp or even 35 hp heat exchanger truckmount cannot keep up the water temperature at 200 degrees when laying on the cleaning trigger full time. All these traditional truckmount system cool down, but NOT this one.

Entire system will operate on the 12000 watt 633cc electric start generator.

Detachable flood extraction machine can be taken into high rises to elevated water extraction work.

Cost way less to purchase.

Easier to maintain (no belts to break)

Estimated amp draw and different pressures:
50% to turn on (9 amps) and .45 amps for every 100 psi you ask it to push
Example:

500 psi = 9 amps on + 2.25 for the pressure = 11.25 amps
1000 psi = 9 amps on + 4.5 amp for the pressure = 13.5 amps
1200 psi = 9 amps on + 5.4 amps pressure = 14.4 amps
1500 psi = 9 amps on + 6.75 amps pressure = 15.75 amps

Note:

Do not allow to freeze

Unit weight is estimated at 300 lbs once it has water in it so you will need a ramp if
you plan on taking in and out of your service truck.

If you are going to add a pressure gauge, please do so on the cold side of the unit
(before the heater)

You can remove the wheels and "U" bolt over each axle to bolt down to your service
trailer/van for permanent installations.

Testimonial:

"I wanted to let you know how pleased I am with you recommending the Goliath 6.6
quad vacuum recovery and the

be9000 watt generator. I did a basement flood job that was approximately 4 inches deep on the concrete. I thought I would be there all day but the Goliath had the water out and job done in 1-1/2 hours! The Goliath will really pump 30 gal. a min like its stated on your web site. I highly recommend the Goliath. Thanks Gary Lindbom" garyscarpetclean.com

"Vacuum is awesome! I love the automatic flood pumping ability. I have worked with the Boxxer 427 for many years and found my Goliath Quad 6.6 feels stronger to me!"
