

Model Number: 78.094

Mosmatic 78.094 Steaminator STM 8in 3/8in NPT M out 1/8in 300psi

Manufacturer: Mosmatic Pressure Washing Equip

It is possible to clean walls and other surfaces with steam. Save time with the Steaminator! Steam cleaning is a great way to disinfect, sterilize or degrease surfaces. By using this cleaner you are able to clean 4-5 times quicker than using a wand. The complete stainless steel construction makes them perfect for the medical and food industries. Works best with a 10kW steam machine.

Steaminator comes complete with 2 x 18.50290 nozzles

## Technical Data

Pressure  
300psi

Temperature  
350&deg;F

Inlet  
3/8" NPTM

Throughput medium  
Steam

## Features

### High Quality Swivel

The heart of a mosmatic Steaminator is the swivel which is reinforced with self lubricating, stainless steel ball bearings and a high temperture seal system. The DXF is specially designed for high revolutions to ensure long lasting durability. Both STM models come with our patented swivel. This swivel is perfect for cleaning many surfaces including walls while remaining flush to the surface.

### Rotor Arm

The adjustable rotor arm allows the user to change the spray angle and the impact on the surface being cleaned.

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

## Recovery System

The double walled housing and reclaim port allow you to attach your vacuum system to the unit. This decreases drying time and allows the user to recover and recycle the used liquid and residue, making it an eco-friendly alternative to cleaning with just one wand.

## Polyamide Casters

The casters allow free movement in any direction while keeping the nozzles an even distance from the cleaning surface. Fatigue is therefore reduced while saving you time and energy.

## Splash Protection

The plastic guard prevents over spray and flying debris. It is extremely effective thanks to the wavy design.
