

Model Number: 237-035

CleanCo237-035, Truckmount Automatic Drain Discharge System, External C.A.D. w/ Panel Mount

Manufacturer: Esteam Cleaning Systems

CleanCo Truckmount 237-035 Automatic Drain, Discharge System External C.A.D. w/ Panel Mount

12 Volt

Automatically discharges your dirty water as you clean for non stop production.

Mounted on the outside of your vacuum waste tank.

Override rocker switch on control panel of truckmount.

Perfect for tile and grout cleaning, dual wandling, pressure washing, and water extraction work.

Cost includes dealer or factory installation with a new CleanCo truckmount purchase but does not transportation and delivery charges from Canada or to you.

Cleanco's external auto drain is vertically mounted to the recovery tank. By mounting it vertically on the outside of the tank, it is protected from damage, saves space and makes it easily accessible for cleaning and servicing.

The external C.A.D. produces a 4.5 GPM flow rate under 14" Hg.

Operating at a lower RPM extends the impeller life.

To prevent blockages, the external C.A.D. has no filters or check valves so external hose mount lint filter recommended.

Part # 237-035..... External C.A.D with Panel Mount.

Optional Part # 263-175..... Dishcharge Hose 5/8" x 75' \$181.40 + Shipping
