ImexServe 09Evo Junior Steam and Vacuum Vapor Cleaner Accessories 3200 Watts Dual Heating Elements 18651359 87 psi

Manufacturer: ImexServe Steam

ImexServe 09Evo-Junior Steam and Vacuum Vapor Cleaner With Accessories 3200 Watt / Dual Heating Elements 100% More Power 18651359

Video of big brother unit below

Imex 09Evo JUNIOR aim is to complete the 09EVO family with an appliance for professional use but for less intensive workloads and with smaller dimensions. We have kept both detergent and ECO Power functions and have maintained the compatibility with the same DLS accessories and tools. This compact machine brings steam cleaning technology to a totally new level. We have improved maneuverability, portability, ease of use of a product that was already among the best in the industry. It is designed for both stationary use and to be carried with your car: an important benefit for your business. And the Power Eco Power function does not only increase efficiency, but it also allows you to use 09Evo in home environments, where there are limits about absorbed power. Large locking swivel caster cart system to minimize floor space while remaining portable.

The machine that embodies this series: power and reliability along with details that make the difference, designed to specifically satisfy the tips we received from you. Two cord winders, handles with pistol holders and a fast and sturdy connector are just some of the features that make 09Evo unlike any other steam cleaning machine. With 6 bars of pressure (87 psi), a 10 liters (2.64 gallon) water holding tank, Eco Power and much more, 09Evo is the perfect machine for your professional applications. Imex 09 EVO Junior is small but powerfull steam generator which includes the main function but in a more compact size for transportation.

Functions:

- Dry Steam
- Detergent Injection
- Steam and vacuum simultaneously
- Wet and Dry vacuum cleaner
- Eco Power button for low amp draw buildings
- Compatible with all IMEX DLS flex hoses and tools.

Perfect for Home, Business, Auto Detail, Mattresses, Ships, Carpet and Tile, Kitchen, Spot, Stain, and Removal of Bedbugs and Odors.

Package Advantages:

One system for steam/Vapor with vacuum recovery for tile and grout cleaning and

auto detail work, bedbug removal, stain and odor removal.  
Chemical injection and adjustable dilution dial.  
Massive 3200 Watts of heat provide 88% steam and vapor than traditional 1700 watt vapor machines and 121% more steam than 1500 watt vapor machines!  
Plugs in everywhere with includes power converter box! (no need to hire and electrician)  
Now available in the USA!  
All Stainless Steel Construction.  
Portable to go anywhere, and now plug in everywhere!  
Non marking wheels and Locking front casters.  
Automatic water refill (pump pushes water into boiler tank from reservoir tank)

Start Up Package Includes:  
0230070001 Imex-09EVO-Junior Power Unit  
0260000000 Vacuum Trolley and Support Kit (stores vacuum unit on top of vapor unit with casters)  
0110070000 Wet and Dry Vacuum Recovery Unit  
0230030000 Steam and Vacuum Hose 4 meters long (13 feet)  
0260160000 Steam and Vacuum tool kit

FREE Dealer Provided  
Harvard Chemical 109IB Inner Beauty Car Dressing and Vapor Assist Jet Wax  
1 Gallon  
One product for both the inside and outside for auto detail work.  
Vapor Jet Wax, Interior dressing.  
20% Emulsion of Biodegradable Silicone  
Concentrated Dilute to 1 part Inner Beauty to 10 parts water before placing in chemical injection container.

FREE Dealer Provided  
Power Joiner Step Up Inverter Electric AC Converts Dual 20 amp 115 Volt outlets to allow 230 Volt 3 wire 20 amp Use [Reverse6-20R] Ford Evos Hybrid Level 2

Allows you to plug in your 240 volt Vapor / Vacuum unit everywhere there are two phases of standard NEMA 5-15R (standard USA wall outlets)  
No need to hire and electrician to have the massive power of 3400 watts of steam.

Boiler Capacity

1.7 liters / 1.8 Quarts (Only 3 minute wait time to use)

Boiler Material

Stainless steel AISI 304

Boiler Power

2100+1100W = 3200 Watts

Max Steam Pressure

6 bar / 87 psi

Max Steam Temperature

165&deg; C / 329 degrees F

Refilling Water Tank Capacity

10 liter / 2.64 Gallons

Auto Refilling system

Yes

Water Refilling Pump Power

48 Watts

Chemical Tank Capacity

5 liters / 1.32 Gallons

Detergent Injection Pump  
48 Watts

Electric Power Cord Length  
9 meters / 29.5 feet + 25 feet on converter box

Steam Production Capacity  
70-85 grams per minute

Max Detergent Flow Capacity  
1 to 12 liters per Hour

Main Unit Dimensions  
32 x 57 x 30H cm (12.6" X 22.4" X 11.8"H)

Main Unit Weight  
13.5 kg (29.8 lbs)

Vacuum units Specs:  
2 Stage Vacuum Motor  
1000 Watts Power  
Power Lift: 1800 mm H2O (70.9" Lift)  
Air Flow: 140 m3/h / Hour (82 CFM)  
Vacuum Units: 5842  
Tank Capacity 15 Liters / 4 Gallons  
Dimensions: 40 X 40 X 66H cm ( 15.4" X 15.4" X 26"H)  
Weight: 12Kg / 26 lbs  
Made in Italy

There are 3 of pump inside the 09EVO (1 for water refill, 1 for detergent and 1 for hydorjet).

There are 2 pumps inside the 09EVO-Junior (1 for water refill, 1 for detergent)

Factory one year parts warranty excludes shipping cost.

All sales final. Returns accepted on unopened, brand new equipment only for store credit less restocking fee and shipping cost.

Read terms and conditions [HERE](#).

Optional extended warranty available.

Unit operates on one NEMA 6-20R (240 volt 20 amp) outlet or dual NEMA 5-15R (120 volt 20 amp) outlets with provided converter.

Amp draw is just under 13 amps (dual 120 volts) on high or just under 9 amps on eco

mode, and 0.03 amps on standby (steam only, no vacuum).  
Factory Presentation.

Ships from San Antonio, TX.

Default package includes the steam and vacuum combination hose with accessories and vacuum only hose with vacuum only accessories.

Steam only hose, steam only with light, and steam only nozzles sold as an option.

See below.

Some photos and videos shown with options sold separately.

Compare to current or past OEM Associations:

Daimler Kleenjet Supreme 3000CV (200 watts less heat, no eco power setting, no pressure gauge, no vapor adjustment knob, heat up time is 15 minutes instead of 9 minutes)

Daimler Kleenjet Ultra 5000CV (200 watts less heat, no eco power setting, heat up time is 15 minutes instead of 9 minutes)

Tandem Pro 2000CV (1500 less watts of heat! - That is 46.875% less steam)

Carmen Super Inox Steam Extractor 1800 watts 120 volts (1400 less watts of heat! - That is 43.75% less steam)

GumBuster OSPREY DEEP CLEAN Steam Cleaner

Use for:

Question: Is the chemical jug injecting chemical into the boiler?

Answer: The chemical is not injected into the boiler. When depressing the chem injection button the pump injects it in a separated pipe line parallel to the steam and chem is mixed just before the adjustable knob valve.

It should not be used too aggressive chemical such as acids or solvents as the internal components might be damaged.

It is extremely important for the machine lifespan and to avoid problems that users DO NOT put substances of any kind into the water refill tank, just regular tap water. For the boiler maintenance it should not be used any descaler product as the heating elements inside the boiler cab be damaged. It should be used a solution of water and white vinegar (50/50). Read the chapter related to the boiler maintenance instructions on the manual.
