IPI Industries 213801 Breeze Extended Run Generator System &mdash; BERG  
System: Dual Feed, HND1.2-000iD

#### Product Summary

No more refueling your generator in the middle of the night! Keep your inverter generators running for up to 36 hours with the BERG System by joining up to two generator to the external fuel tank and extending the continuous run time. The vacuum draw technology enables the fuel to flow seamlessly from the BERG System to the generator, thus allowing you to set it, start it and forget it.
