

Model Number: L14-30R

NEMA L14-30R Receptacle 30 Amp 125/250-Volt Twist Lock Black

Manufacturer: Steambrite MFG

NEMA L14-30R Receptacle 30 Amp 125/250-Volt Twist Lock Black

The L1430R 30 Amp 125-Volt Industrial Grade Receptacle with Safety Grip is designed and built with superior materials for long-lasting performance. It is used for 30 Amp 125/250-Volt with a NEMA L14-30R. NEMA provides a forum for the standardization and testing of electrical equipment, enabling consumers to select from a range of safe, effective, and compatible electronics. Its compact body design allows for adequate wire room in the wall box. Heavy interior walls provide additional support to ensure contact retention. It comes with a heavy duty mounting strap that is double riveted to the body for added strength. 1 piece brass contacts provide excellent plug retention and electrical continuity with minimum heat rise. It features serrated terminal plates and contoured terminal clamp "bites" on the conductors for positive termination.

Compact body design allows for adequate wire room in the wall box

Heavy interior walls provide additional support to ensure contact retention

Comes with a heavy duty mounting strap that is double riveted to the body for added strength

1 piece brass contacts provide excellent plug retention and electrical continuity with minimum heat rise

Features multiple-head screws for flexibility in the installation and ease of use
