

Model Number: 252763000

Chemspec Prorestore OdorX 252763000, Surface Shield Plus, 5 Gallon Pail, Unsmoke White Tint
GTIN: 847136002719

Manufacturer: Chemspec

SurfaceShield Plus with White Tint®

How does it work?

Mold and mildew eat the sugars and cellulose on the surface of wet wood – it’s their food source. But like all living things, take away their food source and they can’t thrive. SurfaceShield uses a patented technology that blocks the nutrients that promote mold growth from reaching a material’s surface*. Its protection penetrates into wood providing a moisture-resistant, breathable coating that's sandable, colorless and HIGHLY resistant to mold and mildew.

So effective it's backed by a 10-year limited warranty!

Creates a long-lasting antimicrobial surface film.

Developed as a tool for improving indoor air quality, SurfaceShield creates a long-lasting surface film that creates an antimicrobial barrier on treated surfaces. The film also encapsulates particulates, helping to prevent redistribution and cross-contamination in the restored environment.

SurfaceShield is suitable for use on wood, paper, gypsum board, plastic, metal, glass and fiberglass. Use in elevator shafts, crawl spaces, return air plenums, HVAC system components and ductwork, new construction, microbial remediation and water damage restoration.

Specifications SurfaceShield (case)

Sold in 5 gallon pail

5 gallon pail

Flash point

224º F (106.6º C)

Appearance

Opaque light green liquid

pH

6.9
