

Model Number: TI02UVA8

International Ozone TI02UVA8 Replacement Bulb Only for Titan 4000 and Titan 1000

Manufacturer: International Ozone

International Ozone TI02UVA8 REPLACEMENT BULB ONLY

Description

Replacement Bulb Only, for International Ozone's Titan 4000 Generator and the Titan 1000 Hydroxyl generator.

Information on Titan 4000 Hydroxyl Generator

Remove Odors & Kill Germs & Clean The Air

The 365 nm UVA Rays emitted from the Titan's TiO₂ Photo Catalytic Lamp pass through a Permanent TiO₂ Anatase Coated Carbon Filter, which is designed to hold the maximum amount of Highly Reactive Nano Sized Anatase Titanium Dioxide, and as a result, electron hole pairs are formed that react with H₂O and O₂ in the air and produce Free Electrons and Hydroxyl Radicals that when dispersed by the fan will decompose organic and inorganic gasses and air pollutants into carbon dioxide and water.

The Largest Advantage to the Titan Air Purification & Deodorization System is that it is 100% Safe to Run in Inhabited Areas.

The market for the Titan is unlimited. Fire and Flood Damage Restoration, Doctor's Waiting Areas, Nursing Homes, Day Care Centers, Restaurants, Night Clubs, Beauty Parlors, etc... can all benefit from the odor and germ destroying properties of Titan's TiO₂ Photo Catalytic process which will clean the air, remove odors and eliminate poisonous gases and organic pollutants.

Another advantage of the Titan TiO₂ Catalytic Lamp is that it is self-cleaning and will perform at its optimum for a period of up to 8000 hours.

REMOVE ODORS - KILL GERMS - CLEAN THE AIR

The 365 - 385 Nanometer UVA Rays that are emitted from Titan's Anatase TiO₂ Coated Photocatalytic Lamp react with the Nano Sized Titanium Dioxide Impregnated Super Reactor Screen and also with the TiO₂ coating on the interior of the unit, and as a result create electron hole pairs that react with H₂O and O₂ in the air and produce free electrons and hydroxyl radicals that decompose organic and inorganic gases and air pollutants into carbon dioxide and water. There is no ozone at all produced from our Titan units.
