

Model Number: DTI-CTT-11

Tiny Tach DTI-CTT-11 Commercial Hour Meter Tachometer

Manufacturer: Kohler

Standard Tiny Tach DTI-CTT-11

Heavy Duty Commercial hour-meter for lawn mowers, garden tractors and a tachometer variety of small engines and generators.

Standard Features Include:

RPM display from 1 to 19,000.

Panel mountable.

RPM update time 1/2 second.

Hour meter records total actual running time on your engine.

Coax cable transmits signal without EMF interference.

1 Antenna cable winds around your spark plug wire to give you the RPM reading-clean and simple to attach.

Signal strength can be controlled by the antenna wire.

Lithium battery life 5+ years, not replaceable.

RPM can be programmed to read a variety of cylinder firing modes correctly Job timer can be reset to record run time for record keeping.

Standard cable length is 6 feet.

One year warranty.

TINY-TACH unit is potted to prevent damaged from moisture and vibration.

Application: Self-contained tachometer/hour meter works for most gas engines.

These are just some rough measurements I took of the Tiny Tach
3’wide (from the outer edge of the mounting tabs)

1 ½’ tall

½’ thick

Medart dealer \$55.00 + \$15 shipping = \$70.00

Walmart \$73.89 free shipping + sales tax.
