Scrubber Floor Machine ORB Technology Solution Tank Spray system

HOS Orbot Orbital Floor Machine SprayBorg

All Surface Cleaning Single-Disc Machine

Stone honing machine, wood restoration, floor sanding, adsorbent pad bonnet carpet
cleaning, tile and grout cleaning, concrete cleaning, encapsulation carpet cleaning,
horizontal scrubbing, orbital scrubbing, and more...

Round is the new square. Why? Simply because it performs better, costs less and is
easier to use all day. Not only is this machine vibrating but is also turning at 80 rpm.
Cleans and restores better than vibration only machines. Process more square feet
per hour. One machine for all surface types. Simply change the attachments.
The versatile Radiant features ORB technology and provides true dual-motion orbital
mechanics without the operator experiencing harsh vibrations from the machine. Our
pad lies flat on the floor resulting in better productivity, more even pad wear, and
improved results.

- Provides even pad wear resulting in better, faster performance
- Integrated solution system allows improved control and less waste
- Low-vibration design allows hours of fatigue-free usage
- Chemical-free floor finish removal
- Clean carpet low-moisture encapsulation
- Tile & grout shine with the nylon scrub brush
- Polish stone with our complete restoration kit
- Remove floor finish from wood, VCT and vinyl floors
- Clean indoor and outdoor concrete
- Deck can be raised to change pads without tipping machine on its back
- Large 10-inch wheels make transportation easy
- No isolators to wear out or replace
- Every point on the pad oscillates at 1725 rpm while the entire pad spins at 80 rpm
- True dual-motion orbital mechanics
