

Model Number: Cat3650

Cat3650, Chemical Injection Pulse Pump, up to 3000 psi

Manufacturer: Cat Pumps

Cat 3650 Chemical Injection Pulse Pump up to 3000 psi

1-12 GPH Downstream Injection Pulse Pump

The CAT Pumps 6350 pulse pump allows you to inject chemicals downstream in your high-pressure car wash system. That means harsh chemicals can bypass your pump and it doesn't get damaged. Has a maximum pressure of 3000 PSI and a maximum flow rate of 12 GPH.

Note: An adapter assembly will be needed to fit this device on your pump. Please contact customer service to determine what assembly you need.

Specifications:

Pressure Range: 500-3000 PSI

Flow Range: 1-12 GPH

1/4" hose barb inlet

1/8" NPT(F) discharge

1800 RPM

130º Fahrenheit maximum temperature

Features:

Permits chemical applications up to 3000 PSI

Eliminates pumping harsh chemicals through the main pump

Conveniently mounts with an adapter into the center inlet valve chamber on the main pump

Standard prime bulb with check valve to initiate chemical flow
