#10 on the schematics exploded view on right side:

With just the turn of a switch, easily change from extraction to interim cleaning. Make room for more storage by replacing two machines with one, or improve your cleaning process by adding productive interim cleaning to the mix. Interim cleaning extends the time between scheduled deep extractions and improves your carpets appearance. This machine operates at only 63 dBA which is perfect for daytime cleaning.

- Several uses for one machine

- Extraction and interim cleaning in one machine

- Change from interim to deep cleaning process at the turn of a switch - no mechanical changeover needed

- With the interim method using the iCapsol encapsulating chemical, the carpet is dry and ready for traffic in approximately 20 minutes.

- iCapsol interim cleaning process extends the time between scheduled deep extractions.

- Designed for maximum maneuverability
