

Model Number: 8.637-470.0

Karcher Taz Windsor Radiant Carpet Bonnet Glider Set 8.637-470.0

Manufacturer: Karcher Pressure Washing

Karcher Taz Windsor Radiant Carpet Bonnet Glider Set 8.637-470.0

Glider The Gliders reduce the friction on textile surfaces.

Plastic disk with Velcro on one side.

They are used to clean sensitive and long fiber carpets gently or to facilitate the handling of the machine on very rough carpets. There are two types of gliders in different widths.

The thin black glider is used on short-pile carpet, while the slightly thicker white glider is used for cleaning medium-length to long-fiber carpets.

The gliders are suitable for use with the Absorbent pads.

Due to the Velcro surface, the gliders stick to the pads.

Attach the glider on the center of bonnet pad so that it is located between the floor and the pad.

Place the glider on the floor, with the Velcro side facing up.

Center the pad on top of the glider and place the driver plate on the pad.

Make sure to always have the flat surface of the glider facing the floor. Never put the Velcro side on the carpet, as this might cause serious damage to the floor!

Use with
