Besen 20190918 PCD-040-32A 32Amp Type1 Level 2 J1772 X 23 ft 14-50p Electric Car Ev Charging Cable FIXED SPEED

Manufacturer: Besen

LEFANEV Besen 20190918 PCD-040-32A 32Amp Type1 Sae J1772 X 23 ft 14-50p Electric Car Ev Charging Cable Level 2 B07FNZBR5W

(LEVEL 2) EV CHARGING CABLE Model: PCD-040-32A (J1772)

Connector: Type1

Certificate: TUV, CE, UL

Input/Output: 230V - 240V AC

Frequency: 60Hz

Current: 32A

Power: 7.68kw

Length: 7 meters (23 ft)

Color: black

Operating temperature: -25â„ƒ to +55â„ƒ

IP Class: IP66

Cable: Straight

IP66 - High Strength Aircraft Grade Aluminum Socket Handle

Now MOREC recommends to you Level 2 32A, 220-240V NEMA 14-50 plug EV Charger, which could charge your car 6x faster than other EV charger you ever used.

## HIGH SECURITY

Our LEFANEV EV charger adopts High Strength ABS material, which has better quality and can be used for longer. Our chargers have over-current protection, over-voltage protection (to help protect your car's computer), under-voltage protection, leakage protection, overheating protection Waterproof rating of IP65 and other safety protection measures, they can keep your car charged safely and avoid fire.

## HIGH COMPATIBILITY

Unlike normal EV chargers, Our EV charger is compatible with most electric cars, which meet SAE J1772 standard. All of our products have passed CE certification and German TUV certification, and the quality is trustworthy

1 Year Factory supplied warranty.

240  
23 Feet  
Yes  
Optional travel converter box available. Extended battery life.

All the charges on the above list will work with 99.9% of the cars sold in the USA that accept the Type 1 J1772 grip.

Companies advertise that these charging cables are 25 feet long because the J1772 plus the box each add a foot of length to the 23 feet of cable length. 23 feet of cable plus one foot for the J1772 grip plus 1 foot for the box = 25 feet.

Level 1 chargers that are included with you car purchase are 120 volt 16 amp and will take about 20 hours to charge a car.

All the above chargers on the list are level 2 chargers.

16 Amp 240 volt chargers will take 6 to 8 hours to charge most cars.

32 Amp 240 volt chargers will take 4 hours to charge most cars.

The optional travel converter box can only be used with chargers that charge at speeds of 16 amp at 240 volts or less. This is why the adjustable chargers have optional travel boxes and the fixed 32 amp chargers to not have optional travel boxes.

Adjustable chargers give you the option to slow down the charging speed to extend overall battery life and maximize the drive time per charge or speed up the charging speed when needed.

Item 20180815 is unique as it combines the travel box with a level 2 charger and eliminates the need to hire an electrician to move up to level 2 charging speeds.

Level 3 chargers are a DC current based charging technology and are limited to a

very small select group of electric cars and are designed to charge cars in under one hour and are not included in our list.

PLEASE INSTALL A WHOLE HOME SURGE AND LIGHTNING ARRESTER PROTECTION TO PROTECT BOTH YOUR CHARGING CABLE AND THE CARS COMPUTER!

LIGHTNING STRIKES ARE NOT A MANUFACTURES DEFECT AND WILL NOT BE COVERED.

In the photo to the right, the round item below the box, on the left is the lightning arrester, the rectangular item on the right is the surge protector. These can be installed under the main panel or in the panel (if you have room).

Photo shows lightning arrestor Delta LA302RG and Siemens FS140 whole home surge protector. It does not have to be these brands. If you do nothing and lighting strikes your neighborhood, the internal surge protection should protect your car but you charging cable will be ruined. Please protect your entire home, as now your dishwasher, refrigerator, clothes washer, and even coffee maker all have computers in them and have to be protected. In the spring time we always have customer that need warranty consideration after that fail to properly protect their home. This is not a manufactures defect if you to not install the correct electrical protection for your charging cable.

Availability: This product was added to our catalog on Friday 25 October, 2019
